
ENVIRONMENTAL POLICY STATEMENT

The BRE Group is the pre-eminent centre for research in the built environment within the United Kingdom, with much of our core business concerned with helping others to improve their environmental performance.

Our vision is – a working life with minimal negative and maximum positive environmental, social and economic impacts.

We aim to ensure that our operations and activities are managed in an energy and resource-efficient manner, in order to minimise detrimental impacts on the environment.

Our Environmental Policy is to:

- aim to comply with all relevant environmental legislation.
- seek continual improvement in our environmental performance
- contribute to economic, environmental and social sustainability in the short and long term.

The BRE Group Board is responsible for implementing the Policy.

This will be achieved by:

- Maintaining an environmental management system, aligned to ISO 14001 and ISO 9001
- Setting objectives and targets to minimise the negative environmental impacts and maximise the positive environmental impacts of our operations
- Training our employees to achieve and maintain high standards of environmental performance
- Using products and processes that assist in reducing the environmental life cycle impacts of our activities and those of our clients and supply partners.
- Communicating openly and consulting with stakeholders on environmental issues.

Signed on behalf of the BRE Group Board

A handwritten signature in white ink, appearing to read 'M Wyatt', written over a faint, larger version of the signature.

Martin Wyatt
BRE Group Chief Executive
January 2010
