23 October 2008
10 December 2008
04 February 2009

SEE WWW.BRE.CO.UK/TRAINING

If you would like to attend this seminar please complete and return the booking form overleaf or book online at www.bre.co.uk/training

Hospitals are complex buildings in terms of fire safety, and fire safety measures in hospitals have traditionally been based on the prescriptive approach set out in the NHS Firecode. Following detailed review, the Department of Health has made some dramatic changes to legislation and will be introducing three key pieces of guidance in line with the Regulatory Reform (Fire Safety) Order this year.

Delivered by Phil Cane, these courses provide an excellent opportunity to gain essential industry updates and have your questions answered in a lively debate environment.

PHIL CANE

BRE Associate, Phil Cane is a registered Fire Risk Assessor Specialising in Healthcare Fire Safety (IFE Registered), a member of the DoH National Fire Policy Advisory Group and previous Chairman of NAHFO.

As well as developing and delivering fire safety courses for healthcare, Phil provides an advisory service to NHS and private healthcare premises, GP practices and Residential Care Homes in East Anglia.
