

Certified Thermal Details and Products Scheme – Fee schedule

Fees will comprise a **listing fee** plus either a **new assessment fee** or **renewal fee**, as set out below.

Note: All fees quoted below are subject to VAT.

Listing fee

All certified details/ elements are subject to an annual listing fee of £49 per year over the validity of the certificate, which is 3 years, i.e.:

3 year listing fee per detail/ element = £147

New assessment fee

Fees are based on a sliding scale as set out in the table below, according to the number of details/ elements to be assessed for certification. This reflects economies of scale associated with the product assessment process.

Number of new details/ elements	Assessment fee
1	£750
2	£1050 (i.e. £525/detail)
3	£1350 (i.e. £450/detail)
4	£1600 (i.e. £400/detail)
5	£2000 (i.e. £400/detail)
6+ details	£350 per detail
20+ details	£325 per detail

e.g. For a certificate covering 12 details with a 3-year listing, the total fee will be:

£4200 (assessment) + £1764 (listing) = £5964 + VAT

If the complexity of the analysis required for certification is considered by BRE to be outside what may be deemed typical, BRE reserve the right to vary the assessment fee accordingly. Overall fees will be set out in the certification proposal.

Note that if a detail/ element is ultimately found not to comply with the Certified Thermal Details and Products Scheme Document and hence is not eligible for certification, or a certificate is revoked for any reason prior to its expiry, the assessment fees will not be refunded, although any 'unused' listing fees (for complete years) may be refunded.

Renewal fee

After 3 years it is possible that building regulations/ standard may improve and, as such, it may be appropriate for details or elements to be adapted or revised at this point. Where changes to standards may influence the applicability of the certified details/ elements meeting the scheme criteria with respect to building regulation backstop values, this will be advised at the time of renewal.

If changes are required to any details, these should follow the 'new assessment' process with associated fees outlined above.

If no changes are required, a **standard certificate renewal fee of £500** will be imposed in addition to the required 3 year listing fees per detail/ element.

e.g. For a certificate covering 6 details with a 3-year listing, the total fee will be:

$$£500 \text{ (renewal)} + £882 \text{ (listing)} = £1382 + \text{VAT}$$
